# CHESSINGTON WORLD OF ADVENTURES

## DAY TRIP FOR 10-12 YEAR OLDS

**Is it a zoo? Is it a theme park? Is it a Sea Life Centre? It's all of those!**

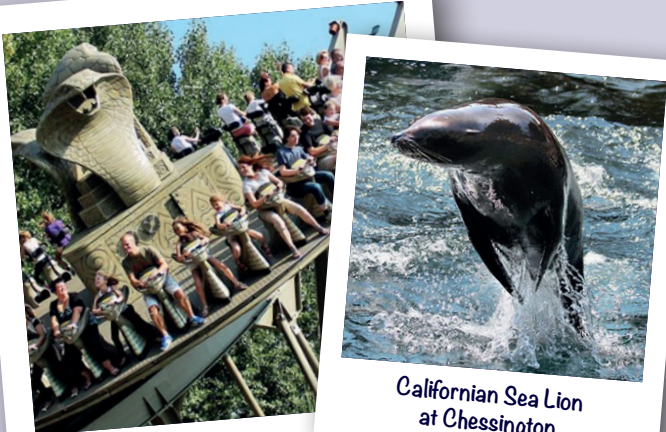

Chessington World of Adventures is a smorgasbord of rollercoasters, water rides and safari that you can easily spend hours absorbed in. This year we are taking our Wycombe Abbey course for a day trip there, as an exhilarating and exciting break from the week's academic work. It doesn't matter whether you are the kind of person who is thrilled by being spun around, turned upside down and soaked on a water ride,

or someone who prefers a quieter journey past the animal enclosures, observing magnificent giraffes and sea lions.

Among the highlights are the Western Lowland gorillas, which are a very endangered species, living only in the forests of Central Africa. Chessington's family are led by a large silver-backed alpha male, who is nonetheless incredibly agile for his size, able to climb trees, as gorillas would to get fruit in the wild. There are also both red-handed and golden-headed lion tamarins, incredibly delicate primates who inhabit the forests of Brazil, sleeping in hollow trees to keep out of the way of predators.

As far as the rides go, one rollercoaster is Vampire, which sends you soaring over the treetops with your legs dangling below you. There is also the Dragon Falls, if you aren't afraid of getting wet as you plunge down the river into the water waiting below. If you are feeling dizzy from all the speeding rides, then you can always head to the 4D experience that is the haunted mansion...

Whatever you fancy, it will be a great day of burning off steam!
